Roxy Theatre Opened For Business Monday Evening; Councillor Dutil Delivered Congratulatory Message

Fine New Spacious And Luxurious Theatre Found Instant Favor With Coleman Patrons; Polio Ban Kept Youngsters At Home

Sparkling like a new pin Coleman's modern Roxy theatre opened wide its doors on Monday evening to permit a capacity crowd to throng into its spacious interior and sit on soft leather chairs to enjoy the first movie shown in Coleman since the disastrous fire last February which swept through a main street block gutting the old Palace theatre, Community hall and three business houses.

Two performances are being played nightly this week and the patrons attending the 7 pm. performance Monday heard Councillor W. Dutil, on behalf of the town, extend congratulations upon the construction of such a beautiful building and affording Coleman patrons the pleasure of once again being able to attend the movies amid such luxurious surroundings.

Theatre manager Ed. Sonshor welcomed theatre patrons back to their own local theatre.

Mr. Don Purnell, speaking on behalf of Purnell Theatres, stated that it was with a great deal of pleasure that they opened the new Roxy theatre in Coleman. He stated his pleasure was in new theatre built on a new site that was deserving of a new name and Roxy had been chosen. He touched lightly on the effort which had gone into the construction of the theatre and the securing of much needed materials. He expressed thanks to those workers who had aided so greatly in constructing the theatre to the point where nightly performances could take place.

It would ever be the endeavor of Purnell theatres, he stated, to provide the public with the best of screen entertainment.

More than half of the brick front is in doors boasting large plate windows. Four doors, when opened, permit easy passage of the crowds to and from the theatre. One enters the lobby from the street. Soft glowing lights on ceilings and walls add to the richness of the cedar panelled walls. The box office is set in the south west corner of the lobby. On the lobby floor is light colored Battleship Marlo-leum which will be easily kept clean.

Rich appearing curtains separate the lobby from the foyer. As one enters the foyer one

steps on a heavy green carpet which absorbs the sound as one walks towards the theatre's two entrances. Once again soft wall lights permits privacy when entering either entrance.

Curtains at each entrance shut off the light from the foyer. In the theatre proper are three rows of seats, the middle row being much wider than the two side rows. Four hundred and twenty soft leather covered seats have been placed in such a manner that nowhere in the theatre can one have an interrupted view of the screen.

Soft indirect lighting illuminates the theatre, the cream colored walls adding a touch of softness to the effect. A ventilating top ceiling draws away the hot stale air and aids in keeping fresh air circulating freely throughout the theatre. Two hot air ducts rise from the floor immediately inside the front of the theatre and form part of the wall near the two entrances.

There is no gallery in the new Roxy.

The projection rooms boasts of strong high intensity arc lamps and high fidelity sound system which ranks with the best in southern Alberta. The cables are shielded. The machines were tested on Monday afternoon and the sound was well nigh perfect, the theatre's acoustics being exceptionally good.

Between the rows of seats have been laid two long strips of left rugs. The front two rows of seats are double deckers or as one party described them, "box seats." The double seats are also scattered throughout the theatre. The backs of the seats are metal and have wooden arm rests.

A brand new screen has been set up and edged in black trim. The screen set and three abbreviated rows of curtains. Across the screen are two large light green curtains which are electrically controlled.

A small stage stretched out beyond the screen and will prove adequate for speakers when required. At either side of the stage are a set of three massive pillars.

Mr. Ed. Sonshor will be theatre manager and Mrs. Sonshor cashier. Mr. Allan Tarcon, of West Coleman, has been employed as usher.

MODERN ELECTRIC EXTENDING FLOOR SPACE

In an effort to keep abreast of ever expanding business Modern Electric recently built an extension to the rear of its main store street.

The extension is to be used as a warehouse and this week supplies are being stored in the warehouse. The movement of stock from the store proper to the new extension has resulted in additional floor space being available and this will be utilized by eliminating the present back wall which has divided the display floor from the storage room and making the whole into one. — V —

ECROY MEETING CANCELLED

Due to the Lions Club sponsoring a play in the arena on Thursday and Friday, Sept. 23-24 Coleman Board of Trade has cancelled its general meeting with Mr. Ecroyd, of the Canadian Chamber of Commerce.

The Board's executive will meet Mr. Ecroyd and hear his message and thus leave the members free to attend the show which in all probability will have some of their youngsters in the cast.

Carelessness Started Forest Fire Monday

All Travellers in Forest Must Have Camp Fire Permit Before Lighting a Camp Fire.

Forest Ranger Irvin Frew was called to extinguish a fire among scrub trees near the mine entrance of McCallumay Creek on the old timber crossing on McCallumay Creek at 2:45 p.m. Monday.

The fire was burning fiercely and a crew of twenty men was required along with a pump and hose to effectively bring it under control. — V —

It is believed that the fire was started by some youths who left it to burn out by itself or were careless in their efforts to extinguish the fire.

Frequenters of forest areas are given warning that under no circumstances are they permitted to light a camp fire without a permit issued by the forest ranger. Should they be found guilty of this offence a conviction will follow without the slightest hesitation as the forests are much too valuable to permit laxity in forest regulations.

BURN NO RUBBISH DURING PRESENT DRY SPELL

Citizens of Coleman are hereby warned not to burn rubbish in back yards or back alleys during the present warm dry spell. Fires are too great a hazard to property which has become tinder dry owing to prevailing weather conditions.

WM. ANTLE, Chief of Police.

DEPT. OF TRANSPORT MAKE MINOR IMPROVEMENTS TO AIR FIELD

The Department of Transport apparently has received a report on the condition of the Coleman air field for it authorized the surface of the field improved and outside markers painted. A new wind director, lack of which resulted in an accident last spring, has also been installed.

All the work was done by Mr. H. Bouthiller and sons who are in charge of the field's supervision.

EARRY HARRIS HONORED AT PRESENTATION

Mr. Harry Harris, who recently resigned his position at the local hospital, was presented with a Morocco leather wallet by the hospital staff, his name being embossed on the gift in gold letters.

The hospital board presented Mr. Harris with an engraved Ronson lighter. Harry held his position as janitor, orderly, ambulance driver, etc. for nineteen years. He will be greatly missed by the staff and patients for his kindness and cheerful willing to all.

Hon. J. G. Gardiner In Favor Of National System Of Highways; Urges Highway Unanimity

Minister Of Agriculture Addressed Nelson Highway Parley; Blackmore, Representing Alberta, Says Southern Route In Province will Be Finished By End Of 1950

(by George Yackulic) Nelson, B.C.—Federal Agricultural Minister James G. Gardiner told a crowd of nearly seven hundred men, enthusiastically supporting the formation of the new Southern Trans-Canada Highway Association, which a banquet here Friday evening, that to put Canada in a "respectable position, with other civilized countries" the Dominion needs a national system of highways from coast to coast, and the roads Western Canada join in demanding standard highways through all proposed routes.

Speaking for Alberta John H. Blackmore, M.P. for Lethbridge, reported to a cheering crowd that Alberta will finish its section of the trans-Canada highway by the end of 1950.

Highway Unanimity

Mr. Gardiner regretted that "the Dominion of Canada is the only civilized country that has not got a national highway" and in outlining his stand for a national system of highways Mr. Gardner declared

"I think the southern route is just as necessary as any other route."

The federal cabinet minister, however, did not throw his entire support for the southern route alone for a trans-Canada highway and he urged that sectional agitation for a fully-modern highway over a specific mountain route be forgotten and that all groups in Western Canada join in demanding standard highways through all proposed routes.

Additional Routes

He explained that promoters of trans-Canada highways over central and northern routes felt that their proposed routes were absolutely necessary and would put forth strong arguments to support their causes.

Basing his views on 35 years of practical experience, Mr. Gardner told a section of the southern route drivers his definite address "you will get the southern highway built a lot faster if you ask to have all proposed routes built instead of asking to have one built."

Mr. And Mrs. Harry Douglas To Reside At Langley Prairie

Plan on Leaving This Week—End to Reside on New 12 Acres Farm

Mr. and Mrs. Harry Douglas and family plan on leaving this weekend to take up residence on a 12 acres farm which they have leased at Langley Prairie, approximately thirty miles from Vancouver.

On August 1 Mrs. Douglas travelled to the west coast in search of a location and chose a farm having eight acres cleared and four acres wood. In addition there is a home and a barn. Some fruit trees are growing on the property.

Mrs. Douglas is the former Gladys Neilson and with her parents, Mr. and Mrs. I. Neilson, on Second street, came to Coleman when twelve years of age and gained her education in the local schools.

She married Mr. Douglas and for a time resided at Hillcrest before moving to Coleman once again in 1941.

In 1944 Mr. Douglas was injured in the mines and for two years was more or less unemployed due to his injury. He has now fully recovered from his injury and it is due to this that he is seeking lighter employment than that experienced in the mine.

Their fourth street home has been purchased by Mr. and Mrs. Wm. Liddle, the former having been assistant forest ranger and now employed by International.

LOCAL LADIES BREADED

Mrs. J. M. Allan and Mrs. George O'Dell received word on Thursday morning of the death of their brother, Mr. Archibald Menzies, of Leslieville, Alberta.

Mr. and Mrs. Allan left on Thursday morning to attend the funeral held on Saturday at their returned home on Monday evening.

JOURNAL CLASSIFIED ADS. HIT THE JACK POT

Last week classified ads. in The Journal sold a typewriter, a chesterfield and a house providing conclusively that Journal classified are read. It is a good investment to use Journal Classified advertising.

Coleman Lions Sponsoring A "Fun For You" Show Based On Leading Comedy; All Local Talent

Miss Mary Wainscott, Of Empire Producing Co., Kansas City, Directing Show; Baby Contest A Feature Attraction

Miss Mary Wainscott arrived in Coleman Monday to start work on "Fun For You" which will be presented September 24 at the Coleman Arena, the proceeds going to the Lions Club's Community Welfare Fund.

Miss Wainscott is well recommended, with many successful shows to her credit. She comes from Hollywood and holds a certificate from the Honolulu Conservatory of Music. She has long been interested in Little Theatre work and has had special training on this particular production.

She met with the Lions at their weekly dinner Monday and reported very good progress on the show.

"Fun For You" is an impersonation of famous radio and screen stars, such as Dr. I. Q. Breakfast in Hollywood, Joe Kelly and the Quiz Kids, Baby Dancers, Minnie Pearl, Duke of Paducah, Uncle Ezra and many others.

During the Breakfast in Hollywood scene a corsage will be awarded the eldest lady present, a whirling ring and a Good Neighbor gift will also be given each night. The lady wearing the goofiest hat will receive nylon. During the Dr. I. Q. show silver rings and candy bars will be the prizes.

In connection with this show a baby contest is being held. The winners will be given silver

COCARDS SCARCE

The harvest in the prairie provinces now being in full swing the coal mines in the area are finding the securing of horses more difficult.

Shortage of horses has caused in some idle time in the mines and with a heavy wheat crop it may be a few weeks before the supply of cars gets back to normal.

Citizens Thanked For \$200 To Flood Relief

Maple Ridge Lions Club

Haney, B.C.

July 30th, 1948.

H. J. Holmes, Treasurer.

The response to our appeal for assistance to the flood victims of the Fraser Valley has not been in vain. The Lions Clubs of Canada have been in haste to help out in this worthy cause to date the total received has been very substantial and the subscriptions are still coming in.

We acknowledge with grateful appreciation your cheque for \$200.00 and would ask you to convey to your club our regards and sincere thanks.

The flood waters have subsided but the aftermath for a great many of our citizens is tragic indeed. Your helping hand in this distress increases our pride in being one of the Lions Clubs of Canada.

Yours for Lionism

W. Clappison,

Past President.

Security For The Farmer

DURING THE PAST FEW YEARS Canada has enjoyed a period of unprecedented prosperity. Industrial expansion has taken place in a very large scale and incomes have risen rapidly in that field. It is interesting to know that agriculture has likewise prospered during this period and that farm incomes have also risen, enabling many farmers to substantially improve their financial positions. It has been an accepted fact, in the past that as a whole farmers did not receive a large share of the national income, and it is gratifying to learn that this is no longer the case. That increased farm income is being wisely used is demonstrated by figures which have been made public by the Dominion Bureau of Statistics, showing the reductions which have been made in farm debts in the past few years.

Debt Reduced On Prairies

The Dominion Bureau of Statistics has reported that in 1946 the number of farms on which there were no mortgages or debts on lands or buildings was reduced by 42 per cent. Mortgage debts on buildings and lands in the prairie provinces in 1941 amounted to \$173,102,500. In 1946 this figure had dropped to \$80,444,000 which was 53.5 per cent. below the total for 1941. The report showed that the greatest drop had taken place in Saskatchewan. In the same period, agreements for sale debts in the prairie provinces dropped from \$123,393,800 to \$80,045,500 or by 34.9 per cent. In this case, the reduction in Alberta was greater than in either Saskatchewan or Manitoba.

While debts on lands and buildings have been substantially reduced, the farmer like all other citizens has had to contend with rising operating and living costs. In April of this year the index covering the farmer's operating and living costs had risen to the record level of 183.2 with costs in the years 1935 to 1939 as a basis of 100. Farm machinery was one of the first articles from which price controls were lifted, and there have been rises also in taxes, wages for farm help, clothing and many other things. Farm income in the first quarter of 1946 was \$65,562,000 more than in the same period in 1947 and \$105,617,000 more than in the first three months of 1946. While they have had to meet rising costs, it is gratifying to know that farmers have taken advantage of the present period of prosperity to substantially decrease their debts and thus increase their present and future security.

RECIPES

BAKED TOMATOES WITH CHEESE

4 large tomatoes
1/2 teaspoon salt
1/2 teaspoon pepper
1 cup corn flakes
1/2 teaspoon paprika
1/2 teaspoons melted butter
1/2 cup grated soft cheese
Wash tomatoes, remove stems and cut crosswise. Place cut side up in baking pan; sprinkle with salt and pepper. Crumble corn flakes into tomatoes, mix with paprika and melted butter. Cover each tomato half with grated cheese; sprinkle with crumbs. Bake in moderate oven (350 deg. F.) about 20 minutes. Yield: 8 servings.

STUFFED POTATOES

Select medium-sized, smooth-skinned oval potatoes. Bake in a hot oven (450 deg. F.) until tender, about 45 minutes. Turn them out and brown the skin. Cut the potatoes in two, lengthwise, remove the potato pulp, being careful to leave shells unbroken. Mash the hot potato, add either milk or cream for as mashed potato.

Season as follows: To each cup of potato add 1/2 teaspoon salt, 1/2 teaspoon pepper, 1/2 teaspoon onion juice and 1/2 teaspoon cheese. Fill the shells with this mixture, rounding the surface so that it is the shape of the original potato. Bake for 10 minutes in a hot oven. Grated cheese may be sprinkled over the top.

BEARS IN MAINE ARE KEEPING UP TO DATE

AUGUSTA, Me. — The "new look" for bears this season includes a traveling bag.

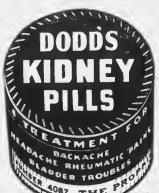

Game Warden Charles Harmon of Aroostook County reported to the state fish and game office here that he chased a black bear that was carrying such a bag.

"I didn't get close enough to shoot the bear," he said, "but I scared it so that it dropped the bag in flight."

Among other things, the bag contained a lipstick.

NEW GOLD DISCOVERIES

EDMONTON, Alta. — The Edmonton Journal, in a newspaper story said that spectacular gold discoveries about 150 miles northeast of Yellowknife in the Northwest Territories may prove to be the most important extension of the mining field since 1930's.

TWO CHILDREN AND A PONY
These two lovely-looking children are the sons of Mr. and Mrs. R. J. Livingston, Cloverdale, B.C. They are shown on their Shetland pony "Brownie." The two little ones are learning to dance and prefer the hillsides to the city which 7-year-old Barbara has won a cup recently live on a 80-acre farm about 24 miles from Vancouver. Their chief harvest is oats and hay, which there was an abundance this year.

URGE AFTER HARVEST WEED CONTROL

"Get a head start on next year's weeds," Heribert A. Paas, Director of Research Green Cross Insecticides, advised in a statement to grain farmers. "Spray stubble grain with 2-4-D. It's your chance to give the stubborn perennial a strong dose of 2-4-D with perfect safety."

In early summer sprays, said Mr. Paas, there is a safe limit to the amount of 2-4-D which may be applied to stubble grain. The 2-4-D must be thinnish and broadcast cannot be treated with as high a dosage as after harvest. There is an additional advantage in that stubble spraying this fall will make next year's perennial easier to treat.

GEMS OF THOUGHT

STYLE: IN WRITING

What is called style in writing or speaking is formed very early in life, while the imagination is warm and impressions are permanent—Thomas Jefferson.

With a nice taste and care in weaving words together, you will express yourself most happily if a skillful setting makes a familiar word new—Horace.

And, after all, it is style alone which posturists will judge of a great work; for an author can hardly truthfully claim his own but his style—Isaac D'Israeli.

The style of an author should be the image of his mind, but the choice and command of language is the result of exercise.—Edward Gibbon.

St. John found Christ. Truth, in the Word which is God. We look for the sainted Reuelator in his writings, and there we find him.—May Baker Eddy.

FRIENDS TOOK FARMER UP ON INVITATION

WISDOM, Kan. — The next time Alief Neel would think twice before telling flying farmer friends to "fly up and see us, any time."

After he had vowed that invitation at a flying farmer meeting, 24 small planes glided in for unexpected landings at Neel's farmland strip.

Up to the occasion, Mrs. Neel whipped up a breakfast for the visitors and the day was spent visiting and flying.

The Chinese used spices more than 4,000 years ago.

STAYED TOGETHER—This is the flooded out Mission-Matsiquo Club and its leader, H. Borg. Although all members were flooded out when the Fraser dykes broke in May, they stuck together, and here they are at Mission Fair.

FUNNY And OTHERWISE

Little Willie tugged at his mother's apron strings. "Ma, don't I have to tell Aunt Mary I have your eyes and daddy's nose?" "Yes, you did," said his mother indulgently. "Well, look at me now ma," said Willie. "I've got Grandpa's teeth."

Junior: "Pop, teacher said the world revolves on its axis." Senior: "You must have misunderstood her son. The world revolves on taxes."

A worried-looking man rushed into the florist shop and demanded three potted geraniums.

"I'm so sorry," said the clerk. "We're out of geraniums right now, but we have some lovely petunias."

"Nope, they won't do," replied the man. "It was the geraniums I promised my wife to water while she was away."

Mrs. Henpeck: "Everything is going up."

Mr. Henpeck: "I don't understand that. For instance, there's your opinion of me, my opinion of you, and our neighbor's opinion of us both."

"I'm saving money for you next term, Dad," announced Ralph. I'm staying in the same form, so you won't have to buy new books."

"You have a nice collection of shells, but you should have more shelves."

"I know, but nobody seems to lend me shelves."

Nervous passenger: "What if a bridge has been hit and the train falls into the river?"

Guard: "That's all right, sir. We have plenty of trains."

A fellow was sitting in a doctor's office, when another patient anxious to get into another division of symptoms, asked him what he was doing for. The first patient replied: "A couple of months ago I swallowed a handfull of mothballs."

"Really?" said the second patient. "What was the reaction?"

"Well," said the first patient, "I haven't been bothered with moths since."

CERTAINLY THIS STORY MIGHT SOUND FISHY

The Fort William Times-Journal tells this one: A New York couple went fishing near Peterborough, Ont., on their 25th wedding anniversary. After fishing for 25 minutes, they hooked a muskie, fought him for exactly 25 minutes and gaffed him. When weighed, the fish was exactly 25 pounds. If anyone thinks the story is fishy, he certainly is entitled to his opinion.

Beethoven began violin lessons at the age of five.

World News In Pictures

SKY-WRITING—Skywriter Joe McDermott of Montreal, who "wrote" over the Canadian National Exhibition grounds at Toronto, works at 10,000 feet where the temperature is in close to 0° regardless of earthly readings. Here a female visitor to the airfield in the Laurentians where McDermott trains, has a peek at the pipe from which the smoke forms to form the words in the sky. When McDermott "writes", he will do so broadside to the breeze to make sure the letters aren't pushed together.—S.N.S. photo.

PINNED-UP GIRL WINS BEAUTY QUEEN TRIALS—All pinned up was Lillian Pintz, 18, a honey blonde competitor in the trials for the western Ontario beauty contest to be held Labor Day. Lillian was all set to parade before the judges when the zipper in her suit refused to "zip". The day was saved with the pin. Lillian then qualified for the finals.—S.N.S. photo.

DISTINGUISHED VISITOR AT ANNUAL SCOUTS' AND GUIDES' RALLY—A keen supporter of the Scouts, Her Majesty the Queen was a welcome visitor to the annual rally of Boy Scouts and Girl Guides at Greenwoods, Essex, Eng. Here she has a special word for District Commissioner Eric Palmer, a piper with the Ilford Scouts.—S.N.S. photo.

GERMAN FAMILIES FOR CANUCK FARMS—First of immigrant German families to reach Canada on their way to new homes in Ontario are Mrs. Ernest Jacob and her daughter, Irma, seen as they arrive to join Mr. Jacob in Morrisburg, Ont. The Jacobs have two boys in Hamburg they hope to bring to Canada soon. Immigrant families are being permitted to enter the country on a special one year's permit. Others are expected to follow shortly.—S.N.S. photo.

CANT RAISE BAIL, GANG LEADER WEEPS—Self-styled leader of the Toronto "Bennery" gang, Frank Stothers, 21, is shown with officials at Barrie, Ont., where with 12 others, he appeared on trial following the Wages Gang trial. On a charge of assault, he said, "I don't have to go back to jail!" The Bennery gang leader added, "My men have deserted me." Four of the gang were freed because of absence of key witness.—S.N.S. photo

BARBARA ANN GETS U.S. VISA—A heart-free Earlene Ann Scott visited H. Earle Russell, U.S. consul-general when she is pictured above with him. U.S. visa for use early in the fall, according to the pretty sister. Accompanied by her mother, Earlene Scott, Barbara Ann arrived in Toronto for a flying visit and returned to her summer cabin at Brockville, Ont., after the necessary official proceedings to enable her to travel to Hollywood and New York in the near future, seeking fame in the movie world. "The ring which I accepted as a friendship gift from George Forman I returned to him," said Barbara Ann. "It was a beautiful diamond ring which belonged to his grandfather and I wanted me to have it. I guess it was silly of me to wear it, but I did, and then everybody thought I was engaged. I'm not"—S.N.S. photo.

TEST PILOT KILLED—Lieut. William Janies McQuade, a Canadian test pilot of the Fleet Air Arm, was killed when the Mosquito he was flying crashed near Givneur, Cornwall, Eng. McQuade, sole occupant of the plane, comes from Toronto, where his wife and family live. He was home on a month's leave a year ago, and started test piloting for the Fleet Air Arm after returning to England.—S.N.S. photo.

DEMONSTRATE JAPANESE DANCES—Japanese dances they learned from the older folk was demonstrated at a summer school in Haliburton, Ont., by Chico Yanagisawa and Ginger Terakita of Toronto, shown with Mrs. Santa Rao, of India, who will sing classic songs of native land.—S.N.S. photo

NAME LADY BANTING FIRST IN COLLEGE—Lady Banting, widow of the late Dr. Frederick Banting, who discovered insulin, was one of the first Canadian women to be awarded a membership in the Royal College of Obstetricians and Gynaecologists. Lady Banting, who has been a member of the college for the past two years, said the result of the examinations in July had surprised her and had convinced her "it was just a fluke".—S.N.S. photo.

VAMPIRE JETS TAKE PART IN THRILLING AERIAL DISPLAY—Chatting with a Canadian National Exhibition visitor Shirley Jordan before he took his Vampire jet up for trial spin is Flt.-Lieut. Jack Phillips, veteran of overseas service. Phillips was a crack pilot with the famed City of Edmonton Squadron flying Mosquitos.—S.N.S. photo.

Many Polish Veterans Arriving In Coleman

Over Forty Have Arrived
During Past Year While Additional Thirty-Eight Are
Expected to Arrive Shortly. Work
in Mines.

Coleman Polish Society has been most active during the past year in bringing to Coleman a number of Polish veterans. These men are gaining employment in the local mines and are helping to alleviate the acute shortage of miners. Some of the experienced miners having worked in the coal mines of their native land.

Four Poles from Displaced Persons camps in Europe are in town, one having arrived a year ago while the others arrived last month.

During the past year forty Poles have arrived from Britain. Twenty of them in August alone. Approximately thirty others are expected to arrive in Coleman following the conclusion of the prairie harvest.

Sixteen Poles are scheduled to leave Britain shortly for Coleman, and one is scheduled to leave Britain shortly to join the sixteen at a British port and arrive in Coleman together.

Polish secretary Mike Opulski informed The Journal that the British government is financing their passage to Canada. These Poles are all veterans of the last war and have been residing in England since the end of the war. The society has been actively engaged not only in bringing these men to Coleman but in finding local accommodation for them. They have practically all been accommodated to date but with the men still scheduled to arrive accommodation is becoming scarce.

Without exception are joining the Coleman Polish Society and according to Mr. Opulski it is believed that Coleman possesses the largest membership in the province.

It would have been noted in a recent issue of The Journal where Coleman Polish Society sought funds to build a school. Board is starting a night school to teach these new citizens lessons in English. When one starts to realize the number of Poles entering the community who are unable to speak the language of the country one must acknowledge the urgency of the request.

T. B. Clinic To Visit Coleman, Sept. 27

Everyone From 3½ Years and Up Are to Be Asked to Register for X-Ray. High School Students to Help Lions in Registration.

Coleman Lions have agreed to sponsor the visit of the provincial TB mobile clinic and the unit will visit Coleman on Monday, Sept. 27 and remain as long as there are sufficient registrations to keep it busy.

Mr. E. R. Baxter, school director, was in town Tuesday afternoon and received Lions' committee members to inform the club would sponsor the clinic.

Since the town will have to be canvassed to determine who desires to have a free X-ray and when it would be convenient for them to appear at the clinic Coleman High school students will be asked to co-operate with the Lions in making the canvass. It was the high school students who were responsible for the outstanding success of the last visit of the clinics.

It is planned to have the clinic in the fire hall this time, the community hall now being only a memory.

Those who regularly donate to the provincial TB seals will have the satisfaction of seeing and making use of the unit which was purchased in its entirety by Christmas seals. It is more modern than the unit here a few years ago in as much that one needs only take off his coat and get X-Rayed. No shirts or under vests to take off this time.

Mr. Baxter has asked that as many citizens as possible make use of the clinic and has lowered the age from 12 years to 3½ years.

When a canvassing team calls at your home some evening this week or next please co-operate with them in having the team answer the questions they have to ask. The unit will be operated six hours daily and will take 80 X-rays per hour. It is very likely there will be three hours in the morning and three hours in the evening. More detailed information should be available next week.

VALUED LINEN TABLE CLOTH STELON

Some person, as yet unknown, entered the yard of Mrs. William Miller, a widow, steel worker, during the dark hours of Monday night and took from the lawn a linen table cloth which was highly valued by Mrs. Miller, since it had originally belonged to her mother and had been handed down to her as a valued family treasure for many years.

Mrs. Miller has placed a number of linens articles on the lawn that evening in order to bleach them. Everything was in their place Tuesday morning with the exception of the table

cloth. The yard gate stood ajar.

In reporting the theft, Mrs. Miller stated that it is not the value of the cloth which disturbs her, rather it is the fact that the table cloth had been in the family for many, many years and is looked upon as a family treasure which held many fond memories.

She appeals to the party who took the cloth to appreciate the treasured memories which the table cloth represents and return the cloth undamaged.

SMOOTH RUNNING
FARM

Your separator, running at extremely high speed, needs a special oil to maintain steady lubrication and prevent wear. The resulting oil—Imperial Cream Separator Oil—is scientifically made to protect the close-fitting bearings of your separator in summer heat and especially in winter cold when ordinary oils tend to congeal.

Imperial Penetrating Oil is especially useful in overhaul jobs for loosening rusty nuts and bolts. It is also valuable for curing squeaks and stiffness in automobile, wagon and carriage parts. Because it seeps between tightly fitting metal surfaces, dissolves gummy substances and gives real lubrication.

Powdered mica is one of the ingredients in this high quality axle grease that provides smooth operation for wagons, spreaders, hayloaders, etc. A thin film is effective and long lasting, lubricating even when it appears dry. When you buy axle grease be sure it's "Mica".

These and numerous other Imperial products needed on the farm are available from your Imperial Oil dealer or agent.

9 a.m. Holy Communion
11 a.m. Matins—At this service the Encyclical Letter from the Lambeth Conference will be read.

2 p.m. Sunday school.
Rev. A. S. Dewdney, M.A., B.D.

The harvest thanksgiving service was held in St. Alban's church, Sunday evening, Sept. 12 with a well filled church. The church was decorated with grain, fruit and vegetables donated by many members of the congregation. The altar was beautiful with its white hangings and decorated with flowers given by Mr. and Mrs. W. H. Garner, and Mrs. W. S. Purvis. There were flowers at every window. The vicar spoke of the co-operation that was necessary between God and man for the production of the harvest, and the co-operation between men necessary to produce the crop. This principle of a partnership between God and men, and between men and one another runs through every department of life. Most of our troubles today stem from the fact that we have neglected one or other aspect of this partnership. The same principle is true in all things that matter. Men's efforts must be operate with the grace of God. And men must worship and act in fellowship with one another. Only if we make this double partnership real can we enjoy the fruits of the earth or the fruits of the Spirit.

After the service the congregation adjourned to the Parish hall. Stanley Kline of Blairmore gave great pleasure with a number of piano selections. The vicar made an appeal to all to take a more active part in the life and worship of the church, and many of those present pledged themselves to do so. Everyone felt the prospects were brighter than they had been for some time. Afterwards refreshments were served by the ladies of a newly-organized group in the parish.

CARD OF THANKS

We wish to express sincere thanks to those friends who helped us move furniture into our new home on Tuesday afternoon. We wish to particularly thank Messrs Robert Wood and Bud Fisher for their valued aid.

Mr. and Mrs. Evan Gushul

Tank for Cooling Milk

PROPER means of cooling milk are essential to the production of a first class product. It is desirable that milk be cooled quickly for best results, then kept cool until shipment. The health inspection services of most cities ask for the storage of $\frac{1}{2}$ to 3 tons of ice per cow where ordinary methods of milk cooling are used. It should be of particular interest to dairy farmers, therefore, that with a properly insulated cooling tank a little more than a ton of ice is sufficient to cool 33 lbs. of milk per cow during the six months of the year. All the cooling to be done with the ice. This takes care of 6,000 lbs. of milk during the six months mentioned, which is considerably more than the average dairy cow will give during this period of time.

It would seem logical to ask, therefore, why put up $\frac{1}{2}$ tons of ice per cow when $\frac{1}{4}$ tons will do? In an ordinary concrete tank about half of the ice put into it is wasted cooling the soil and air around the tank. If a tank is properly insulated, however, this loss is reduced to a comparatively small amount.

Freshly drawn milk has a temperature of about 98 degrees Fahrenheit, and for best results it should be cooled to 50 degrees, or less, within two hours after milking. To extract the heat from a given quantity of warm milk it requires a definite amount of cooling, and this must be cold, to absorb the heat. This refrigeration is supplied either by melting ice or by a refrigeration machine usually driven by electricity. Recent studies of this problem have shown that to cool 100 lbs. of milk to a temperature of 48 degrees in two hours takes 1.2 kilowatt hours of electricity or 40 lbs. of ice. Insulated tanks, of course, are essential not only for economical cooling but also to secure the degree of cooling necessary for a first-class product.

The size of the tank needed will depend on the number of 8-gallon cans to be cooled at one time, plus the amount of water required.

To obtain the necessary capacity of refrigeration storage in the form of ice water there should be three times as much water in the tank as there is milk in the cans.

The tank should not be deeper than necessary to permit the cover

to close over the top of standard cans, as excessive depths only add to the labor of lifting the cans out, and the depth of water need not be greater than sufficient to reach the necks of the cans. The accompanying table gives the dimensions of several convenient sizes of tanks for different sizes of dairy units. It should be noted that a standard inside width of 3 ft. and a depth of 27 ins. is used in all sizes, the variation being in the length only.

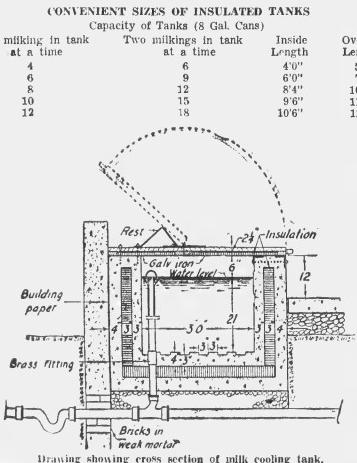

The important point in the construction of a cooling tank of this kind is, of course, the insulating material. A great deal of research work has gone into the development of the best forms of prepared insulation for this kind of milk-cooling tank. Not less than 3 inches of the material is advisable, and it should be made up either of compressed cork sheeting such as is used in the construction of refrigerators, or of any of the wood pulp insulating materials now on the market. Several firms interested in the insulating material trade prepared insulation-wrapped sheets of canvas of this material, in shapes and sizes which fit the standard tanks with a minimum of cutting. It should be remembered that it is extremely important that these insulating packages remain permanently dry, because any insulating material loses considerable of its insulating value when it becomes impregnated with moisture.

In building one of these insulated tanks the best procedure is to lay the floor of the tank first, setting in position the dimensions together with the fittings for the overflow pipe. When this is completed the insulating material is put in position both on the floor and in the side walls, then outside and inside forms for the walls of the tank are put in place and both walls poured at the same time.

As the concrete walls approach completion, anchor bolts for the wooden frame around the top of the tank and for the angle iron corner protectors for the front of the tank are placed in the concrete while it is still soft. The cover for the tank is made of a wooden frame filled with insulating material and the under side of it at least should be covered with galvanized iron to keep the insulating material dry.

CONVENIENT SIZES OF INSULATED TANKS

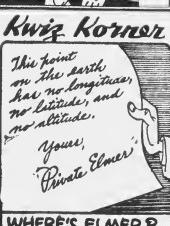

Capacity of Tanks (8 Gal. Cans)		Overall Length
One milking in tank at a time	Two milkings in tank at a time	
4	6	4'0"
6	9	5'8"
8	12	6'0"
10	15	6'4"
12	18	7'0"
		10'6"
		12'4"

THIS CURIOUS WORLD

By WILLIAM FERGUSON

ANSWER: The Gulf of Guinea, off the west coast of Africa, where the prime meridian crosses the equator, at sea level.

WORLD HAPPENINGS BRIEFLY TOLD

Employees of the North Bay Daily Nugget have purchased the newspaper from the estate of former publisher and president, the late W. E. Mason.

Estimated building construction in Edmonton was boosted to a record \$19,000,000 for 1948 by applications for building permits for two major schemes totalling more than \$450,000.

A program for reorganizing defense forces of Australia, including a "joint war production staff," was announced in the speech from the throne opening the federal parliament.

A 21-year-old girl, stranded five hours on a water-battered rock in Capilano canyon, North Vancouver, was rescued by firemen who formed a human chain to bring her up the steep cliff side.

Exports of Canadian wheat during the crop years ended July 31 totalled 136,897,000 bushels, down 23,439,000 bushels from the 160,336,000 shipped in the preceding year, Dominion Bureau of statistics reported.

Canada's national parks attracted a record number of visitors in the four months ended July 31, the resources department announced. The attendance was 694,344, a six per cent increase over the previous all-time high of 653,881 in the same period last year.

Australia announced a reduction of 20 per cent. in gasoline ratings for private use and 10 per cent. for other users, effective Oct. 1, to limit dollar purchases. Present gasoline rationing, based on the horsepower of the vehicle, ranges from six to 13 gallons a month.

Yellowknife Mine Pouring 240 Tons A Day

EDMONTON.—The pouring of the first gold brick at Yellowknife Mine brought to fruition 13 years of staking, financing and development that has run into millions of dollars.

Dr. Charles Camsell, former Canadian deputy minister of mines and resources, officiated at the pouring ceremony before some 60 federal and Alberta officials, mining, oil and aviation executives, service representatives and Edmonton and Yellowknife business men.

A. Ken Muir, giant general manager, presented the gold brick to Mines and Resources Minister MacKinnon, who in turn presented it to W. C. Ronson, Ottawa, master of the mint.

At present, Giant Yellowknife is milling 240 tons a day. It is pouring bricks currently by means of mining, crushing and mercury amalgamation. Slave River power is coming in at the end of September. A roasting plant will begin operating in November.

The whole plant will be operating by Christmas and operating rate stepped up to 300 tons a day by early 1949. Later it will go up to 500 tons.

The mill is designed for eventual expansion of 1,000 tons daily capacity.

COLLECTS DIVIDENDS

BURY ST. EDMUNDS, Suffolk, England.—A Suffolk farmer who bought a sow at the market had soon collected his dividends. When he called to take it home he found it had given birth to a litter of 16.

A goldfish has teeth in its throat and chews its food thoroughly before swallowing it.

OUR COMPLETE SHORT STORY

THIS IS LOVE

By ANNA E. WILSON

SWALLOWS, Andy said, reminded him of some humans, the way they built their nests of mud and hair and straw, high up in the eaves, trusting that the rain wouldn't wash them away or the wind blow through the rafters and send them pretty nestlings tumbling down to the barnyard floor among the ruins of the insecure home their careless parents had provided.

And yet, Andy reminded himself, watching the birds dip and circle and dart about, some swallows must have built well, else there would be no swallows. He sighed, thinking of Chris and Cluny.

Cluny was tall, broad-shouldered, his face weathered and browned and a kind of slightly wistful smile. He had built his home up there on the cliff, storm proof and wind proof, and then he had married Chris and taken her to live in it. It was Chris who reminded Andy of the swallows—there was something homely about her, and trusting, too trusting. Chris skinned through life just as the swallows skinned the earth, never quite touching it, never quite a solid, human part of it.

"But Chris," he could hear Cluny explain patiently, "I know you love to look pretty and that ruffled dress makes you look like a five-year-old in her first pinup, but we can't afford it."

But Chris hadn't heard him. "Look at the way the skirt flares out Cluny."

"Chris, honey," Cluny's voice was roughened with love and worry. "It isn't the beauty I see on the outside for which I love you. Looking at you in your ruffled dress is something I share with everyone—like a pretty picture." But Cluny frowned, trying to explain himself, "honesty and self-sacrifice and loyalty to one other person—that's something within me which I have lost because I can't mortgage it. He's still making payments."

Chris didn't cry for all she looked so soft. There was a vein of iron in her. She went out quietly and looked at the pretty dresses in her cupboard, the fine curtains on the windows and at the new porch swing, and then she went in to Cluny and sat beside him, holding fast to his soft, "Cluny," she told Dr. Meyers steadily. "He's going to have a massage and X-rays and everything he needs." Mr. Dunbar had this house and he'll pay a good rent to it. I can get my old job back with Mr. Macarayd. It pays well. The rent and what I earn will keep Cluny in the hospital." Suddenly she clung close to Cluny. "Cluny," she cried brokenly, "I've been like one of those swallows, building a nest carelessly and when the wind blew, it came tumbling down on me; but the swallows always give us a new nest when we fall down, they build again." She slipped to her knees, sobbing wildly, her arms tight about Cluny, his tight about her. "Cluny, Cluny, marriage isn't just skin-tight. Life is filled in pain and terror—and misery. Oh, Cluny, Cluny—and this is love!"

Memorial Gates Dedicated At Consort

An event of lasting importance to people of Consort, Alta., and district was the recent opening and dedication of the Memorial Gateway at Lake Road Cemetery, at which a large crowd from the surrounding country attended. The picture above gives one an idea of the size and shape of the gateway, but it does not do justice to its fine workmanship and artistic beauty. The plaque, as seen—one on the right hand pillar and one on the left. The plaque on the right side reads: "Erected to the memory of the men of Consort and district who gave their lives for freedom, 1939-1945."

Dedication

"We are met before a beautiful memorial, built of stone on a solid foundation, lasting we pray, as the memory of the names they bear. We dedicated, dedicated to the memory of those who gave their lives for us, those who gave their lives that we might live. We, therefore, dedicate this Gateway to the Glory of God in memory of those who died on the field of Honour, and in honour of those who served and came back to us. May the memory of their magnificent services be kept green and may the cause of freedom in which they fought be upheld in our hearts and minds and in the hearts of all who follow in their steps."

In days to come let the Gateway be both a memorial and a symbol—a symbol of the days of Freedom which shall arise out of the sacrifices of those whose giving of themselves we commemorate today, of those who made the supreme sacrifice we say:

"They are not dead, they shall not die while still Affection lives and memory fulfills Its tasks of gratitude.
Not being alone,
The sculptured monument, the graven stone
The commonwealth of freedom that shall rise
Worldwide shall tell their noble sacrifice."

Canadians Again Warned To Go Easy On Coal, Fuel Oil

OTTAWA.—A government authority said Trade Minister Howe shortly will issue an official warning that Canadians must go easy on coal and fuel oil supplies this Winter.

The spokesman said that although Canada's fuel picture looked bright this year than a year ago, storage difficulties still persisted.

The Dominion, he said, still was unable to transport sufficient fuel oil and coal from United States points in the short navigation season to cover the entire winter season.

Steerer prices also appeared to be in store for Canadian consumers, the spokesman said. Anthracite coal

likely will climb \$1.50 to \$1.75 a ton. He would not give an estimate of what the fuel-oil increase might be.

"That is up to the industry," he said. "There is a marked improvement in the oil situation, both for heating purposes and for gasoline, but you must remember that the industry is paying out more money for wages this year and for higher production costs."

However, the fuel authority believed fuel oil will increase will be moderate.

The official gave these reasons for the profitable increase in the price of coal:

Two freight-rate increases announced by the railways this year, one granted by the Board of Transport Commission last spring and another announced by the railways recently to cover competitive areas.

2. Coal miners' demands for higher wages.

3. Union trouble earlier this year in the Alberta mining fields.

But there was a bright side to the fuel picture. The official said that production increases in the Maritimes have been noted and that the eastern provinces will benefit by greater delivery to the central provinces. A slight increase also is noted in the Alberta area.

These increases, said the official, coupled with anticipated deliveries from the Pennsylvania fields will make for warmer homes in Canada this Winter.

BEAVER PELT TEN SQUARE FEET SETS A RECORD

SASKATOON.—Experiments conducted at the University of Saskatchewan are seeking to rid lignite coal of its 30 per cent water content.

Dr. W. Graham, assistant professor in chemical engineering, is conducting the experiments in view of the fact Saskatchewan's coal half of Estevan in the southern half of the province produce only lignite.

In transportation excess weight of the water adds to cost. Drying by hot air causes coal to crumble.

Police Refuse Actor's Request

SASKATOON.—When Cameron Mitchell, Hollywood actor, was fined \$13.30 here for speeding, he asked police to send the "bill" to the American Automobile Association.

Officers said Mitchell explained: "We don't bother with such trivial things in Hollywood." Police declined to accede to his suggestion, and said they were not conducting a collection agency.

SAYS WOMEN BETTER AT JUDGING HORSES

TORONTO.—Take it from pretty Joan Pickard of Winnipeg, women are better than men at judging horses.

"Since more girls than boys take riding lessons, it seems logical they should be more competent to judge the classes in which junior riders compete," said Miss Pickard, here to represent Manitoba in a junior horse judging competition.

PEGGY

South Saskatchewan Irrigation Project Proving Successful

(By Ken Liddell, in Regina Leader-Post)

SWIFT CURRENT.—The Swift Current-Herbert irrigation project is trying out its first set of long pants. Farmers who live along the 40-mile ditch are beginning to find that as the growing pains wear off they have quite a husky baby on their doorstep. Apart from irrigation on hay flats at Rush Lake, last year saw first use of water on private farms at Herbert, extreme eastern end of the project, and this year there was gratifying increase in usage under the ditch and also in interest among farmers.

This situation was gratifying cause while growing pains are now going on will probably have a payoff next year. Interest in all irrigated plots is particularly evident around Waldeck and Rush Lake. The Rural Municipality of Excelsior at Rush Lake this year offered 15 lots of nine to 15 acres, most irrigable, for \$300 each, and D. Campbell, secretary-treasurer, reported that seven lots had been sold with inquiries about two others.

Building Restrictions

Mr. Campbell reported the council was pleased with this reception because it had been anticipated that the building restrictions would be a drawback to quick sales.

The lot for Neil Jahneke, Herbert farmer and rancher since 1904 who was this year interested in 45 irrigated acres of land, said "we put the water on a little too late this year, but when we did put it on, boy, she sure comes up. There are a few ragged edges to the whole thing, but it is chiefly a matter of getting the older farms interested."

The interest is growing at

Herbert where last year's 400 irrigated acres of barley, oats, flax, this year jumped to 600 acres.

A great deal of promotion that

Mr. Campbell said the restrictions were a bit stiff but as the surveyed area would eventually become a virtual village adjacent to Rush Lake they were considered necessary to prevent speculation.

In addition, at Rush Lake, about 1,500 acres have been surveyed into irrigable parcels of 40 acres each. These will be offered to dry-land farmers for growing feed. Preference will be given to veterans, then to farmers within the Rural Municipality of Excelsior, then to farmers outside the municipality.

Interest In Feed

Mr. Campbell said that interest in his municipality centred chiefly around larger irrigated plots for feed crops. As it grows, he said, the whole scheme will mean that the general economy of the municipality will be more assured as in dry years farmers will be "on their own" so far as stock is concerned.

At Waldeck, however, between Rush Lake and Swift Current and about 10 miles east of the latter town the interest takes another turn. Probably because Waldeck is closer to a larger centre, the interest is in both field crops and garden produce.

And what was done with garden produce this year is a pretty fair indication of what can be accomplished on a larger scale in the future.

Idaho's Challis National Forest has a mountain called Red mountain, known for its brilliant red coloring.
